

Windows XP Dial Up Settings

Secure by Design - 18773736121

To set up your dial up settings on Windows XP, you'll need to follow these simple steps.

First, open the "New Connection Wizard". Click on Start, choose 'Connect To', then click 'Show All Connections'. Click on 'New Connection Wizard'.

If you can't find it there, Click on Start, choose 'All Programs', then 'Accessories', then 'Communications', click on 'New Connection Wizard' .

1. Welcome to the New Connection Wizard. Click Next.
2. Check 'Connect to the Internet'. Click Next.
3. Check 'Set up my connection manually'. Click Next.
4. Check 'Connect using a dial-up modem'. Click Next.
5. Enter "SBD" in the 'ISP Name' box. Click Next.
6. On the 'Phone Number to dial' screen, enter one of:

* Dial-up phone number:

250-352-2061 *Nelson*

250-365-4957 *Castlegar*

250-368-6721 *Trail*

* *Enter only one number, without the city name.*

The screenshot shows the 'New Connection Wizard' dialog box with the title bar in blue. The main area has a light beige background. At the top, the title 'New Connection Wizard' is in white on a blue background. Below that, the section 'Phone Number to Dial' is in bold black text, followed by the question 'What is your ISP's phone number?' in a smaller font. To the right of the text is a small icon of a telephone handset. Below the question, the instruction 'Type the phone number below.' is displayed. Underneath, the label 'Phone number:' is followed by a text input field containing the number '250-352-2061'. Below the input field, there is a paragraph of instructional text: 'You might need to include a "1" or the area code, or both. If you are not sure you need the extra numbers, dial the phone number on your telephone. If you hear a modem sound, the number dialed is correct.' At the bottom of the dialog box, there are three buttons: '< Back', 'Next >', and 'Cancel'.

7. On the 'Internet Account Information' screen, enter:

**Username: username@sbdemail.com

Password: *****

Confirm password: *****

** Enter your username here, not the word username.

Please note, that if you have a netidea.com email address, you can continue to use it, you do not have to change your email address

Click Next.

The screenshot shows a Windows-style dialog box titled "New Connection Wizard" with a blue header. The main title is "Internet Account Information" in bold, with a small icon of a computer mouse to the right. Below the title, it says "You will need an account name and password to sign in to your Internet account." The main area is light beige and contains the following text: "Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)" There are three input fields: "User name:" with the text "username@sbdemail.com", "Password:" with ten black dots, and "Confirm password:" with ten black dots. Below the fields are two checked checkboxes: "Use this account name and password when anyone connects to the Internet from this computer" and "Make this the default Internet connection". At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

8. Check the 'Add a shortcut ... to my desktop' box. Click Finish.
